

Fake Bake comes to Ragdale Hall

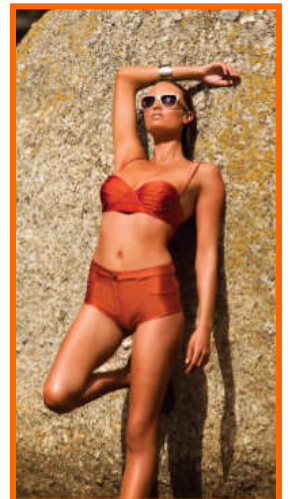

GMTV This Morning, Now magazine, Woman and Grazia all agree Fake Bake are the “best” self tanning products available ...and now they are on sale in the Beauty Shop at Ragdale Hall.

Launched in the USA in 1995, Fake Bake was the first self tan to combine naturally derived tanning agents (DHA and Erythulose) – guaranteeing longer lasting (up to 50% longer), more natural looking results than most self tans on the market at that time.

Since launching in the UK in 2001, Fake Bake has enjoyed celebrity endorsement and media plaudits.

The range, now available in Ragdale Hall’s Beauty Shop, as well as giving a fabulous even tan, has products with added skincare benefits like anti ageing, anti cellulite and anti oxidants and ones tailored to specific skin tones. There are also products to prepare the skin before application of the self tan and afterwards to help prolong it. All are oil free which provides a tan which naturally fades over 10 days with no patchiness.

Our Beauty Shop staff will be happy to introduce you to this amazing range of products on your next visit.
