When only the best and most luxurious is required!

Along come two fabulous treatments from French aromatherapy experts Decleor, developed in association with Ragdale Hall's Senior Treatment Team and exclusively available there.

The Moroccan Spice Complete Face and Body Detox

Combining the benefits of advanced technology in aromatherapy and phytotherapy, this bespoke detoxifying treatment is a must for those who demand visible results but also a warm and comforting experience.

Discover a smoother and more refined figure with this ultra-effective detoxifying body treatment. Expert massage techniques help to rid the skin of toxins, whilst pure and natural ingredients deep cleanse and eliminate. After an exfoliation of the entire body and a specialised aromatherapy massage using our 100% natural Aromatic Detox Balm, you will feel utterly soothed and completely relaxed. A unique cocktail of essential oils is then combined with Moroccan clays and applied to your body as a mask. Whilst enveloped in a cosy heated blanket, you are soothed by the gentle heat and any tension is smoothed from your face with a deep, draining massage. After a refreshing shower, your skin feels revived, appears more radiant and with its texture refined, your figure seems more contoured. **Duration: 2 hours 15 minutes - £109**
